Dear Rob and Jo-Anne:

Thank you for taking my staff and I to visit Fisheries and Ocean's pink salmon fry trap program on the Fraser River. Your enthusiasm, knowledge and attention to safety made the trip greatly enjoyable for everyone. Those of us in the business of managing salmon are fortunate to have folks like you with keen observational skills and a strong conservation ethic on the river every day. We know we can count on you to generally be aware of activities on and near the river and to report unusual events as they occur. As such you should be commended for your stewardship of the salmon and other wildlife resources along the Fraser. In short, Fraser River Safari is eco-tourism personified. We heartily endorse your continued efforts and will enthusiastically recommend your river tours to anyone who would like to experience a fun, educational and unique view of the river.

Thanks again and all the best for your continued success!

Sincerely,

Mike Lapointe
